EXPERIENCE

React Native Intern | RUWWAAD

Feb 2025 – May 2025

- Developed and styled multiple UI screens for the Aamanu, translating Figma mockups into functional and responsive mobile interfaces.
- Built robust RESTful APIs with Node.js and Express.js, implementing secure authentication and authorization with JWT.
- Designed and managed database schemas in MongoDB, writing efficient queries and ensuring data integrity for application features.

MERN Stack Intern | DEV WEEKENDS

Jan 2025 – Jun 2025

- Built full-stack web applications from concept to deployment using the MERN stack
- Designed and developed RESTful APIs, connecting the frontend to the MongoDB database
- Created dynamic and interactive single-page applications (SPAs)
- Gained hands-on experience in database design
- Deployed projects on platforms like Netlify, Vercel and backend for Railway

PROJECTS

REAL ESTATE LISTING PLATFORM

July 2025

- Developed a real estate web application using the MERN stack with Tailwind CSS
- Designed intuitive UI/UX to ensure smooth navigation across devices
- Focused on clean code, component reusability, and responsive design principles

MULTIVENDOR SERVICE MARKETPLACE

August 2025

- Developed a Multivendor project enabling vendors to list, manage, and sell services online
- Implemented user authentication, vendor dashboards, service listings, order management, and reviews using React, Node.js, Express, and MongoDB.
- Integrated Cloudinary for media uploads and Stripe for payments
- Designed a responsive UI with Tailwind CSS and optimized performance

ACTIVITIES

University Hackathon - Developed problem solutions and presented the solution to a panel of judges, receiving constructive feedback on technical implementation

Start-ups Pitches - Participated in on-campus start-up pitch events to present business ideas and technical solutions, conducting market research
